PRINCETON'S SESQUICENTENNIAL.

One Hundred and Fiftieth Anniversary to be Celebrated Oct. 20-22.

Elaborate arrangements are being made for the Sesquicentennial celebration of Princeton University, October 20-22, the first charter of the old college of New Jersey having been signed October 22, 1746. This will be one of the most important college anniversaries that have occurred since the celebration of the two hundred and fiftieth anniversary of Harvard in 1886.

During the week preceding the celebration, public lectures will be delivered in Princeton by some of the distinguished professors from British and Continental universities who are delegates to the Sesquicentennial celebration. The lectures are divided into six courses, being given by Joseph John Thompson, Cavendish Professor of Physics in the University of Cambridge, England; Felix Klein, Professor of Mathematics in the University of Goettingen, Germany; Edward Dowden, Professor of English Literature and Rhetoric in Trinity College, Dublin; Andrew Seth, Professor of Logic and Metaphysics in the University of Edinburgh, Scotland; Karl Brugmann, Professor of Indogermanic Philosophy in the University of Leipzig, Germany; and A. A. W. Hubrecht, Professor of Zoology in the University of Utrecht, Holland.

Inasmuch as the first charter was signed October 22, 1746, the Board of Trustees has resolved that the Sesquicentennial celebration shall end on the 150th anniversary day of this event, and has further decided that the celebration is to occupy three days. Accordingly the three days fixed upon are Tuesday, Oct. 20th, Wednesday, Oct. 21 and Thursday, Oct. 22 of the present year.

On the first day, Tuesday, there will be a commemorative religious service, beginning at 11 o'clock in the morning. President Patton will deliver the discourse at this service.

The second day, Wednesday, is distinctively the great day for the alumni. In the morning the oration and poem will be delivered, the orator being Prof. Woodrow Wilson, of the class of 1879, and the poet, Rev. Dr. Henry Van Dyke, of the class of 1873.

The third day, Thursday, is the actual Sesquicentennial Anniversary day. In the morning there will be a procession to Alexander Hall, the announcement will be made of the University title and of the endowments secured and the conferring of degrees and other appropriate ceremonies will be held. With this morning celebration on Thursday the public exercises of the Sesquicentennial Celebration will close, although in the evening there will be a farewell dinner given to the delegates from the visiting universities.

At the session of Yale Corporation held during the last Commencement week, the Rev. Prof. Fisher was appointed as the delegate from the University to attend the Princeton celebration.

The Banner will be published on or before December 10th.

WHAT IS

X-ODE

INHALER ?

X-ODE is a product of electricity. It forms on asbestos while being electrically treated in a solution. This asbestos is put up in a glass vial. When the cork of the vial is removed and the air comes in contact with the asbestos, it emits from the inhaler a soothing gaseous substance, which will penetrate any part of the body. When inhaled through the nose or mouth, it penetrates every nook and crevice of the mucuous surfaces, kills the germ that causes the disease, and gives the tissues a healthy condition, thus effecting a permanent cure. It is unlike snuff, drugs or medicine. X-Ode penetrates parts that it would be impossible for drugs or medicines to do.

Catarrh, Asthma, Hay Fever, Coughs, Headache, Bronchitis, LaGrippe, etc., yield to its influence with marvelous rapidity.

This inhaler lasts from one to three years. Trial size inhaler, 15 cents; large size inhaler, \$1.00. All druggists or by mail.

The X-ODE CO., 19 Union Square,
