The New Harvard Captain.

After the close of the Harvard-Pennsylvania game last Saturday the Harvard team met to elect their captain for next season. The choice fell upon Norman W. Cabot without a dissenting voice.

Mr. Cabot has had a very brilliant athletic career since his entrance into Harvard University in the fall of 1894. He prepared at the High School of Brookline, Mass., where he captained the team in his Senior year. As a Freshman he did not come out as a candidate for the University eleven, but tried for halfback on the Freshman team. He was discovered late in the season by the coaches of the University eleven and made into an end rush after two weeks' practice. His game has steadily improved ever since then and he now can rightly be called one of the finest ends on the football field. In the Princeton and Pennsylvania games of this year he was at his best and gave such evidence of his knowledge of the game that his fellow players could do nothing but elect him by acclamation to this position of honor.

WHAT IS

INHALER ?

X-ODE is a product of electricity. It forms on asbestos while being electrically treated in a solution. This asbestos is put up in a glass vial. When the cork of the vial is removed and the air comes in contact with the asbestos, it emits from the inhaler a soothing gaseous substance, which will penetrate any part of the body. When inhaled through the nose or mouth, it penetrates every nook and crevice of the mucous surfaces, kills the germ that causes the disease, and gives the tissues a healthy condition, thus effecting a permanent cure. It is unlike snuff, drugs or medicine. X-ODE penetrates parts that it would be impossible for drugs or medicines to do.

Catarrh, Asthma, Hay Fever, Coughs, Headache, Bronchitis, LaGrippe, etc., yield to its influence with marvelous rapidity.

This inhaler lasts from one to three years.
Trial size inhaler, 15 cents; large size inhaler, \$1.00. All druggists or by mail.
