## Obituary.

PINCKNEY W. ELLSWORTH, M. D. '36.

Dr. Pinckney Webster Ellsworth, '36, died at his home, 68 Collins Street, Hartford, Conn., on November 29. The direct cause of his death was a stroke of paralysis received two days previous. Dr. Ellsworth was born in Hartford, December 5, 1814. His father was Hon. William W. Ellsworth, '10, Governor of Connecticut, and his grandfather was Oliver Ellsworth, Chief Justice of the United States. He prepared for college at the Mt. Pleasant Classical School, Amherst, Mass., and at the Hartford Grammar School. He was graduated from Yale College in 1836.

After graduation Dr. Ellsworth commenced the study of law, but soon took up that of medicine and graduated from the College of Physicians and Surgeons in New York in 1839. He then opened an office in Hartford, where he continued in active practice until 1894, when ill-health compelled him to retire. In 1842 he was married to Miss Julia M. Sterling, of Bridgeport, Conn., who died in 1854, two years after the death of her only child. On December 7, 1856, he was married to Miss Julia T. Dow, of New Haven, by whom he had eight children, six of whom are now living—four daughters, and Rev. W. W. Ellsworth, '90, and E. B. Ellsworth, '93S.

In 1843 Dr. Ellsworth went to Europe and studied his profession in London, Paris and Dublin. Upon the breaking out of the Civil War he was appointed surgeon to the Connecticut Brigade of Volunteers and participated in the battle of Bull Run. After that battle he received a commission as Brigade Surgeon of Volunteers, but was forced to resign in the following Winter on account of a severe illness. He was then made an examiner of recruits.

Dr. Ellsworth was one of the founders of the Hartford Medical Society and was a member of the Connecticut Medical Society and the Hartford County Medical Society. He was also an honorary member of the New York State Medical Society. He was a director of the American Asylum for the Deaf, the Collins Company, and the State Mutual Fire Insurance Company. He was a man of deep religious feeling and had been for over fifty years a member of the Center Church. As a physician he made a specialty of diseases of the eye and ear. He performed the first surgical operation in which anesthesia was used.

## To Prohibit Football.

It is certain that a bill will be introduced in the Missouri State Legislature some time this Winter making it a misdemeanor or a felony to play football in the State. A number of members have drawn up measures which would place football upon the same plane as prize fighting, and as soon as the Legislature meets, a number of bills of this nature will undoubtedly be introduced.
