

## WINTER ENTERTAINMENTS.

## Lectures and Concerts Announced in University Courses.

Excellent advantages are offered to members of the University this Winter, in lectures and in music. In music two series of concerts will be given; these are the Chamber concerts and the Symphony Orchestra concerts.

The Chamber concerts in past seasons have always proved very successful and have been particularly well supported this year. Two have already been given and the remainder will be given on the following dates: January 12, February 2, February 16, April 6. The remaining concerts will all be given by the celebrated Kneisler Quartette of Boston in the College Street Hall. The concerts are open to all members of the University. Tickets for the course can be obtained for \$3, and a limited number, for students only, for \$1.50.

The New Haven Symphony Orchestra concerts are four in number. The first will be given in the College Street Hall to-day and the remainder on January 21, March 4, and April 22. No other orchestra of the kind is attached to any institution of learning in this country and it offers peculiar advantages to students in music. Tickets may be obtained at Steinert's.

The managers of the Musical Department of the University will this year make trial of a new idea. After the second concert of the New Haven Symphony Orchestra a definite plan will be formed for giving a concert sometime in the middle of February, in which the College choir and University Glee Club together with the Orchestra will take part.

A series of song recitals will be given by Dr. John C. Griggs, '89, during the Winter in Warner Hall. Dr. Griggs gave a course of lectures on "Worship Music" in the Divinity School last year which were well attended by men from all departments of the University and the course given this year will probably excite as much interest.

Several lecture courses, of which only two have already been announced, will also be given in connection with the University. The Leonard Bacon Club has secured the following eminent men for its lecture course this year:—

Rev. Edward Everett Hale, D. D., of Boston, who spoke November 18 on "Co-operation in Christian Work Between Minister and People."

Rev. Dr. T. T. Munger, who will deliver his lecture on Jonathan Edwards, December 16.

Rev. Dr. Charles H. Parkhurst, who will speak on "Some Phase of Civic Reform."

Rev. Dr. William S. Rainsford of St. George's, New York, whose social settlement work is of so unique a character.

Rev. Dr. Alexander McKenzie, of Cambridge, Mass., who is one of the most popular of preachers at Yale.

Rev. George A. Gordon, D. D., of Boston, another popular man at Yale, who will lecture on Phillips Brooks.

These lectures, while mainly of interest to the students of the Theological Department, are open to members of the University.

A very interesting course of lectures has also been arranged to be given in the United Church, under the auspices of the Men's Sunday Evening Club. A similar course was given last year, and was largely attended by College men. The course has been laid out as follows: December 6, W. T. Fletcher, of Amherst, on "The Place and Power of Books"; December 13, Charles Dudley Warner, '72, hon., on "Early Egyptian Civilization"; December 20, Dr. Van Dyke, of New York, on "Tennyson as an Ethical Teacher"; January 10, President Tucker, of Dartmouth, on "Who is the Great Man"; January 24, Mrs. Ballington Booth on "Released Prisoners"; February 14, Dr. George A. Gordon, of Boston; March 7, Dr. Edward Everett Hale, of Boston. Other speakers to whom dates have not yet been assigned are: Professor Fisher of Yale, on "The Pope's Letter on the Ecclesiastical Orders"; Talcott H. Russell, '69, on "Toleration"; Professor Winchester of Wesleyan, on "The Bible as Literature"; Walter Allen on "High Schools in Connecticut"; Judge Simeon E. Baldwin, '61, on "The Place of Society

in Congregationalism"; Mrs. Alice Lincoln of Boston and Richard Watson Gilder of New York, on "Housing the People"; Librarian Greene of Worcester, on "What the Public Library Can be Expected to do for the People." These lectures are free and open to all members of the University.

The Yale Civil Service Reform Club will also offer a series of lectures. The first was given on December 2 by Theodore Roosevelt. The second will be delivered by Charles Jerome Bonaparte, of Baltimore, and other lectures will probably be arranged. Lectures for which arrangements have not yet been completed, will also be offered in the Art School, in Dwight Hall and by the Phi Beta Kappa Society.

## WHAT IS

## INHALER ?

X-ODE is a product of electricity. It forms on  
asbestos while being electrically treated in a  
solution. This asbestos is put up in a glass vial.  
When the cork of the vial is removed and the air  
comes in contact with the asbestos, it emits from  
the inhaler a soothing gaseous substance, which  
will penetrate any part of the body. When inhaled  
through the nose or mouth, it penetrates every  
nook and crevice of the mucous surfaces, kills the  
germ that causes the disease, and gives the tissues  
a healthy condition, thus effecting a permanent  
cure. It is unlike snuff, drugs or medicine. X-Ode  
penetrates parts that it would be impossible for  
drugs or medicines to do.

Catarrh, Asthma, Hay Fever, Coughs, Head-  
ache, Bronchitis, LaGrippe, etc., yield to its influ-  
ence with marvelous rapidity.

This inhaler lasts from one to three years.  
Trial size inhaler, 15 cents; large size inhaler,  
\$1.00. All druggists or by mail.
