On the question so thoroughly canvassed during the late campaign, though he supported the Chicago candidate, and platform, he is a moderate bimetalist and believes it right, that there should be silver currency adopted by the international agreement, but also believes that if adopted by the United States the other leading nations of the world will very soon accede to it. His speech at the late Democratic Convention in seconding the nomination of the present Governor-elect did him great credit. PENNSYLVANIA'S HOPES.

Reasons for Good Feelings about the Intercollegiate Cup.

[The Pennsylvanian.]

The long-expected covered track for winter track work on Franklin Field is now being used every day by the sprinters, hurdles and broad jumpers, under Trainer Murphy's directions.

To accommodate the jumpers and pole-vaulters a jumping platform has been built and the platform covered over with saw-dust, which will prevent jarring and sore feet. The old jumpers are now practicing, and several new men have begun work in this event as well as in the pole-vault.

Particular attention is being paid to developing some men in the hurdles, as this has always been Pennsylvania's weakest event. Captain Winsor, Leslie, Schrack and Stitzer are running over the hurdles every day.

Judd, who on account of illness was unable to compete last year, will be out this week and will greatly strengthen the sprinters, who are Hoffman, Hillary and Blackburn.

The distance events this year are better represented than ever before. Orton, Grant, Jarvis (who, however, is not eligible for the intercollegiate), Mechling, Shengle and Steele, should make a distance team second to none, and will certainly prove a big factor in the Mott Haven games.

Sichel, Shengle, Lane, Quicksall and Price should all do well in the middle distances. Of these, the first three will undoubtedly make very fast time this year, Sichel in the quarter and Lane in the half-mile.

The mile walk will bring out plenty of men, but they all need a great deal of improvement before they can figure in the big races. Thornton, Worth, Price, Bell, McMichael and Fetterman are the most promising candidates.

In the bicycle races, Pennsylvania is strongest in her tandem teams, but has a very good opportunity with the others too, if they fully develop their capabilities. At present Columbia has by far the best prospects in this event.

The prospects in the weight events are brighter than ever. Wiley Woodruff has improved greatly in throwing the hammer and is regarded as the most likely winner in that event in the intercollegiate. Outland, Wentz, McDevitt, Dean, Overfield and McCracken are all promising men.

Trainer Murphy, when seen on Saturday, said that there was no reason why Pennsylvania's team this year should not surpass all previous ones. The material is plenty and excellent and all that remains to put it into the best possible shape.

Yale-Harvard Banquet.

The Yale and Harvard men of Seattle, Wash., held a joint banquet at the Rainier club, Dec. 29, thirty-one men being present. Yale men supplied toastmasters for the Harvard men and vice-versa. W. A. Brown, '72, "College Men in Politics;" Everett Smith, '83, "College Men in the Law;" A. J. Balliet, '92, "College Athletics."
