**WHAT IS X-ODE INHALER ?**

X-ODE is a product of electricity. It forms on asbestos while being electrically treated in a solution. This asbestos is put up in a glass vial. When the cork of the vial is removed and the air comes in contact with the asbestos, it emits from the inhaler a soothing gaseous substance, which will penetrate any part of the body. When inhaled through the nose or mouth, it penetrates every nook and crevice of the mucous surfaces, kills the germ that causes the disease, and gives the tissues a healthy condition, thus effecting a permanent cure. It is unlike snuff, drugs or medicine. X-ODE penetrates parts that it would be impossible for drugs or medicines to do. Catarrh, Asthma, Hay Fever, Coughs, Headache, Bronchitis, LaGrippe, etc., yield to its influence with marvelous rapidity. This inhaler lasts from one to three years. Trial size inhaler, 15 cents; large size inhaler, \$1.00. All druggists or by mail.

"No, boys; I have not been burning the midnight oil to get all that material for my address. I have not spent hundreds for books of reference. I could not have got these up to date facts and figures in that way."  
"I simply send to Romeike for Press Clippings."  
"Day by day he sent me editorials and original articles collected from thousands of newspapers and periodicals which are read in his offices, and I only had to arrange the material."

**ROMEIKE'S Press Cutting Bureau**

will send you all newspaper clippings which may appear about you, your friends, or any subject on which you want to be "up to date."  
A large force in my New York office reads 650 daily papers and over 2,000 weeklies and magazines; in fact, every paper of importance published in the United States, for 5,000 subscribers, and through the European Bureaus, all the leading papers in the civilized globe.  
Clippings found for subscribers are pasted on slips giving name and date of paper, and are mailed day by day.  
Write for circulars and terms.

**PRACTICAL EDUCATION.**

Education in the minor details of any business may be obtained, it is true, by experience. But don't be educated in this way unless you must. **IT'S EXPENSIVE.** Employers charge dearly (in reduced wages) for what they teach. The long wait for a fair salary means more than the small outlay and short time required for thorough training in

HANDSOMELY EMBOSSED.

The efficiency and life of a Bicycle Lantern depends upon the brightness of the reflecting surfaces.

Reflecting Surfaces in the "Search-Light" are protected by glass and cannot become smoked or tarnished.

Flame Cannot Jar Out, as demonstrated by thousands of riders who have used our patent method of attaching lantern to the wheel.

New Adjustments. The Bracket and Oil Reservoir are so constructed, that the operation of these parts is even simpler than heretofore.
