

**The Yale Law Journal's Development.**

The editors of the *Yale Law Journal* announce that, beginning with the present volume, the magazine will be published monthly during the college year. This is an increase of one-half in the size of the present over former volumes, and is in keeping with the rapid progress and development of the Law School. Since the *Journal* was started in 1892, it has constantly gained in influence and circulation, and has become the recognized medium of the graduates of Yale in all matters of a legal nature. It is to be hoped that it will receive the cordial support of the alumni and friends of the Law Department in its new venture.

Among those who are expected to contribute articles to the *Journal* the coming year are: Hon. Simeon E. Baldwin, of New Haven; William Reynolds, Esq., of Baltimore; Robert C. Fergus, Esq., of Chicago; Prof. Edwin Burrill Smith, of Chicago; Hon. Frank D. Pavey, of New York City; Prof. Isaac Franklin Russell, of New York City; Frederick H. Betts, Esq., of New York City; Prof. T. S. Woolsey, of New Haven; Hon. William E. Simonds, of Hartford; Henry G. Newton, Esq., of New Haven; Hon. John S. Seymour, of Washington, D. C.; Hon. Charles A. Prouty, of Washington, D. C.; Hon. Livingston W. Cleaveland, of New Haven; Hon. Edward O. Bowers, of Washington, D. C.; Henry B. Staples, Esq., of New York; B. J. Shipman, Esq., of St. Paul; John E. Clayberg, Esq., of Montana; Hon. Elmer B. Adams, of St. Louis; and Justice Hunt, of Montana.

**Journal of Science for October.**

The following are the contents of the *American Journal of Science* for October: "Fractional Crystallization of Rocks," by G. F. Becker; "Eopaleozoic Hot Springs and the Origin of the Pennsylvania Siliceous Oolite," by G. R. Wieland; "Conditions Required for attaining Maximum Accuracy in the Determination of Specific Heat by the method of Mixtures," by F. L. O. Wadsworth; "Systematic position of *Crangopsis vermiformis* (Meek), from the Subcarboniferous rocks of Kentucky," by A. E. Ortmann; "New Species of the Palinurid-Genus *Linoparus* found in the Upper Cretaceous of Dakota," by A. E. Ortmann; "Studies in the Cyperaceæ," by T. Holm; "Improved Heliostat invented by Alfred M. Mayer," by A. G. Mayer; "Pseudomorphs from Northern New York," by C. H. Smith, Jr.; "Chemical Composition of Hamlinite and its Occurrence with Bertrandite at Oxford County, Maine," by S. L. Penfield.

**Beneficiary Aid for Students.**

Every year the Yale Corporation applies the sum of \$19,000 for the aid of those students who are unable to pay all their expenses. This amount includes a part of the income of the Ellsworth Fund and the income of the Langdon Fund. Both of these funds are devoted entirely to those who are about to enter the University. The Loan Fund, which was spoken of editorially in the WEEKLY's first issue of the year, is made up from repayments made to the Treasury by those who had received aid during their college

course. This fund at present does not exist and unless those who have received aid and are able to repay now, do something, a number of men, who are expecting some slight aid will be disappointed.

There are a number of scholarships, yielding an income of \$115 a year, which are given to worthy applicants after admission to the college. The special funds from which beneficiary aid is now given, are: The Morgan Fund of over \$100,000; the Maret Fund of \$100,000; the Cushman Fund of \$200,000; the Cushman Fund Lyon Scholarship Fund of \$44,000; the Leavenworth Scholarship Fund of \$10,000; the Lucius Hotchkiss Fund of \$10,000; the Holmes Scholarship and thirty-four other scholarship funds for such students as shall be selected by the Faculty.

**The Lit. Contents.**

The October number of the *Yale Literary Magazine* will appear on October 15th. The contents follow:—Essays—"Talking With the Fair," by H. W. Fisher, '98; "Dante Gabriel Rosetti," by H. A. Callahan, '99; "Chimmie Fadden and Sam Weller," by I. Henderson, '99. Stories—"Ammersledge," by O. M. Johnson, 1900; "The Decoy," by R. Hooker, '99. Poems—"Pendomassa," by H. Mason, '99; "Villou Ballade," by C. E. Merrill, Jr., '98. Portofolio—"The Smiths," by R. Hooker, '99; "I am your Dog," by R. Morris, 1901; "For Those in Peril on the Sea," by R. Morris, 1901; "Some Considerable Paper Bags," by H. Nichols, '99; "The Belle," by H. Mason, '99.

**University Golf Club.**

A meeting of the University Golf Club was held last week and the following officers were elected: President, W. R. Betts, '98; Vice-President, G. S. Chauncey, '98 S.; Secretary, and Treasurer, S. A. Smith, '99. An executive committee was appointed, containing a representative from each class as follows: R. H. Crowell, '98; W. B. Smith, '99; H. Boocock, 1900; and L. M. Robertson, 1901.

THE GREAT WARNER LIBRARY NEARING COMPLETION.

AFTER more than two years of steady labor, the Library of the World's Best Literature, under the editorial direction of Charles Dudley Warner, is nearly finished. About two-thirds of the volumes are now ready, and the entire work will be completed not later than January—possibly earlier. Its completion will be a distinct literary event. The special introductory price under the arrangement made by Harper's Weekly Club will positively be advanced November 1st. Readers will do well to make note of this fact, since by joining the Club now they will obtain the work at nearly one-half the price at which it will hereafter be sold. We have no hesitation in advising our readers to take advantage of this opportunity. We believe the Warner Library is a work of such extraordinary character that it will sooner or later find its way into every home of

culture and refinement. The fact that such a marvelous compendium of the literature of the world, with the exposition and criticism of the foremost living men of letters, can be had for a sum less than the cost of the simplest collection of single volumes, makes this a work which from the mere standpoint of economy no lover of books can afford to be without. The Library is not only an immense saving of time and study, but of money as well. A postal card sent to the Harper's Weekly Club, 91 Fifth Avenue, New York, will secure full particulars regarding the favorable terms upon which it is at the present time offered to Club members. We believe there are few of our readers who will not feel we have done them a special service in calling their attention to this monumental work.

**Why should an Educated Man be Handicapped?**

One certainly is if he goes into business of any kind without knowing what is likely to be required of him. Those who know what is Best in Academic Education can appreciate most keenly the best

**PRACTICAL EDUCATION.**

Education in the minor details of any business may be obtained, it is true, by experience. But don't be educated in this way unless you must. **IT'S EXPENSIVE.** Employers charge dearly (in reduced wages) for what they teach. The long wait for a fair salary means more than the small outlay and short time required for thorough training in

**Eastman Business College,**

POUGHKEEPSIE, N. Y.,

THE BEST TRAINING SCHOOL OF THE LAND.

Write for its catalogue. It will prove interesting reading. If you cannot well attend the College you can certainly afford a course of instruction **BY CORRESPONDENCE.**

*By the way, Lieutenant-Governor Timothy L. Woodruff, of New York, Yale '79, finished his education with a course at Eastman.*
