Compulsory Gymnastics.

The Freshman class officers made a new announcement last week, with regard to the compulsory gymnastic classes.

"The curriculum calls for sixteen hours' work; fifteen hours have been filled, and the officers of the class call for additional time to complete the sixteenth hour. Gymnastics have been selected as the required study. Instead of adding to the duties of the Freshman class, they have actually been reduced, because any other study than gymnastics would have called for time in preparation, while physical training does not. Again, the course in gymnastics lasts only through the cold weather, while any other course would not be finished at the end of the Winter term.

The course at the gymnasium calls for two forty-minute periods each week. Men who wish can take prescription work during the day as an alternative, attending three times, each period to be thirty minutes. Two absences will count as a cut. The rules for tardiness will be the same as in other classes. Men who prefer can give up one evening a week and attend a class that will meet on Saturdays at 12:30."

The Hillhouse High School eleven defeated the New Britain High School team at the Field Saturday morning by the score of 28 to 14, thereby winning the State interscholastic championship and the Yale cup for one year. Hillhouse is now entitled to play the winning team in Massachusetts for the Harvard cup and the championship of two States.
