SPECIAL NOTICES.

[Class and Association Secretaries are invited to use this column.]

To Ninety-Seven.

Much complaint is often made because news regarding members of the various classes is not circulated promptly through the medium of the WEEKLY. The fault lies partly with the secretaries, who are not as active as they might be in following the movements of their classmates, but complete satisfaction cannot be obtained unless the men themselves are willing to cooperate. At this present crisis many changes are taking place in all our circumstances. It is now a good time for every man who enlists or in any way becomes identified with the war movements, to remember that many of his classmates are interested in his career. Any items sent to the Secre-

tary, or to the WEEKLY direct, will be promptly published, and unless all the members of our Class are willing to take this trouble, it will be impossible for us to keep informed of events of Class interest. The address of the Secretary is 20 Lawrence Hall, Cambridge, Mass. The WEEKLY is the best medium for circulating class news, and this means should be made use of, if we expect to keep track of our classmates' movements.
