Lounsbury, republican candidate for governor, was born in Poundridge, Westchester County, N. Y., where his parents, Nathan and Delia Schofield Lounsbury, were temporarily living in 1838. His father moved to Ridgefield in this State in a few months, and Senator Lounsbury has lived upon the homestead ever since. He was educated in the district schools and at the age of seventeen taught school and until he entered Yale College, from which institution he graduated in 1863. He graduated from the Berkeley Divinity School in Middletown in 1866 and had charge of Episcopal parishes in Suffield and Thompsonville. He was obliged to give up the clerical profession owing to an affection of the throat and entered upon a business career in the manufacture of boots and shoes with his brother, ex-Governor Phineas C. Lounsbury, and is still connected with that business in the firm of Lounsbury, Mathewson & Co., at South Norwalk. Mr. Lounsbury had never aspired for public office, but in 1894 he was nominated for senator from the Twelfth district and was elected in a usually close district by over 1,300 majority. He was Chairman of the Finance Committee of the Legislature of 1895. In 1896 Senator Lounsbury was renominated for the senatorship and was elected by over 2,700 majority, running ahead of the McKinley presidential electors in the district. He was Chairman of the Committee on Humane Institutions and presided over the hearings in the well known reformatory matter, and in the matter of the oral instruction for deaf connected with the Mystic School. Lounsbury, '63, received 356 and was nominated on the first ballot. Ex-Secretary of State Charles E. Searls of Putnam, who was the especial representative of Mr. Porter in the canvass, said to a Hartford *Courant* reporter, after the battle, that he was much disappointed in the vote. He had not expected a victory, but had looked for at least 200 votes out of the 504. As it turned out, there were only 120 for Mr. Porter. Mr. Searls said he attributed the falling off from calculations to the printing of the letter in Mr. Porter's paper on Wednesday evening, which reflected on the intelli-

gence and character of the country citizen. He said that caused an immediate exodus, and, although Mr. Porter had not seen the article and did not approve of it, it made havoc with his following. Mr. Porter, it is said, was more confident before the convention than were those in immediate charge of his canvass.
