THE ÆTNA ENDOWMENTS

BETTER THAN GOVERNMENT BONDS.

BECAUSE:

They have paid, and are paying, a better rate of interest.

They are fully paid for in a definite number of years.

Their value is fixed and does not fluctuate.

They are non-taxable and are protected by legislative supervision.

In case of death, even during the first year, no further payment is required, but the Endowment becomes immediately payable, the same as a life policy.

They are sold in sums of from \$1,000 to \$25,000, and are within the reach of all.

Their payment is guaranteed by the Ætina Life Insurance Company, of Hartford, Conn. assets over \$47,500,000.

They provide for early life, middle life, advanced life, and death.

They are indisputable, non-forfeiting, and absolutely safe.

Write for particulars.
