was named Uintacrinus. There are over 200 of these crinoids on this new slab, and it is a peculiar feature that all are of the same species. The specimen is being mounted by Prof. Beecher, and will soon be on exhibition.

The Yale-Princeton Debate.

The date of the Yale-Princeton debate will be Tuesday evening, December 6th, and it will be held in New Haven. Yale has submitted the question for debate, "Resolved, That the United States should annex Cuba," and Princeton will announce her choice of sides before November 1st.

The preliminary trials for places on the team will be held in about two weeks and final trials a week later.

It is expected that a large number of men will try for the team, as the double victories of last year seem to have increased the interest in debating throughout the University.

From one end of the land to the other, wherever men who demand the best are found, Fownes' Gloves are the recognized standard of merit and fashion. They are best for dress, for the street, for riding, driving, or golfing — for all occasions and all purposes. To wear them is to be correctly gloved. All leading haberdashers sell them.

Freshman Union Organizing.

At a meeting of the Academic Freshman Class, held in Alumni Hall, on Wednesday, October 12, 1898, for the purpose of organizing the Freshman Union, it was decided to elect a committee of three, to take charge of the Union for the first three weeks, and at the end of this time to elect officers. The following committee was elected: Chairman, William Edwards Day, of Indianapolis, Ind.; Edward Lyttleton Fox, of New York City, and Charles Harold Collins, of Brooklyn, N. Y.

The meeting was attended by over two hundred men, and was addressed by J. K. Clark, '99, President of the Yale Union, who briefly outlined the purpose and proposed work of the Freshman Union.

Mr. Clark hopes that debates can be arranged with Freshman unions of Columbia and Harvard, but is not confident of success.

Sheffield Class Officers.

At a meeting of the Senior Class of the Sheffield Scientific School, held on Monday, Oct. 17, Alfred Howlett Durs-ton was elected President; Alexander Wallace Botkin, Vice-President, and Herbert Thacker Herr, Secretary and Treasurer.

Ardsley Golf Tournament.

The third championship tournament of the Intercollegiate Golf Association will be held at Ardsley-on-Hudson, New York, beginning on Wednesday, October 26th. The match for the team championship will start on the first day. This will be of teams to consist of 6 men each, the results to be determined by match play in rounds.

The individual championship will follow, beginning on Friday, October 28th, with the qualifying round of 18 holes, best 8 scores to qualify.

Teams will be sent by Yale, Harvard, Columbia, Princeton and possibly the University of Pennsylvania.

The make-up of the Yale team has not yet been decided upon, but will be chosen from the men who make the best showing in the tournament for the championship of the college which is now in progress.

Princeton Steady Advance.

The Princeton Eleven is making a slow but sure advance all along the line, and the coaches are confident that on Nov. 12 they will be able to put a strong team into the field. It is not unlikely that Kelley will be behind the line with Reiter for the big game. Wheeler's recovery from his injury gives Princeton another excellent man behind the line.

At a meeting of the Buckland Club, held at the Law School on Wednesday afternoon, October 12th, the following officers were elected for the coming year: President, W. H. Comley, Vice-President, A. C. Corbin; Secretary and Treasurer, A. F. Judd, Jr.

Specimens of Crinoids for Yale.

The Peabody Museum of Yale has been recently enriched by the addition of a large slab of crinoids, which is very interesting to paleontologists. The specimen measures five by seven feet, and is the largest of its kind, and most perfect yet discovered. It is from the chalk formation of western Kansas, and was presented to the Museum by Prof. O. C. Marsh, who found the first specimen in 1870, in Utah, near the Uinta Mountains, and hence the genus
