Linen, not Wool,
Against the Skin!

Why not? Russians, who ought to be credited with some experience in cold weather, have generally declared for linen underwear. Read what some of the most eminent dermatologists of the country have said about the advantages of Linen. Deimel Linen-Mesh is queer stuff and costs a bit, sure enough, but it is magnificently endorsed by intelligent people who have tried it.

Dean Wright Presides at Academic Faculty Meeting.

The first Academic Faculty meeting of the Fall term was held last week. The interesting feature of the meeting was the presence in the chair of Dean Henry B. Wright of the Academic Faculty. Dr. Arthur T. Hadley, President of the University, sat with the regular members of the Faculty. Hitherto the President of the University has always presided at Faculty meetings of the Academic Department. The change emphasizes the University idea and also the plan of the administration to place the particular affairs of each department under that department's own care, reserving matters of general University interest and policy to the University Council, at which the President will preside.

ANYWHERE!

That's where you can buy a Knox Hat. For if by any chance the hat store at your home is not a Knox store, a line to the main office, Fifth Avenue Hotel Building, New York City, will start a sample your way.
