

BUSINESS SENSE

discourages a man's taking chances when he can easily assure the end desired.

No good business man takes chances with his houses and barns; he insures them so that in the event of loss he may not suffer.

You should make such arrangements that in the event of your death your family will not suffer financially. This is what Life Insurance accomplishes.

PRELIMINARY CATALOGUE.

**Freshman Classes Slightly Larger—
Total Registration about the Same.**

The preliminary list of the members of the Academic Departments of the University appeared last week.

In these two Departments it appears by the list that there has been a decrease of 2 over last year, when the total registration was 1,744. The loss has been in the Scientific School, as the Academic registration is 1,232 as compared with 1,224 last year.

The Academic Seniors are 25 more than last year, when 301 were registered, but the Junior class has fallen off no less than 60. The Sophomores have increased in numbers about correspondingly to the loss in the Junior class. The Freshmen number 338, or 8 more than their predecessors of 1902.

All classes of the Sheffield Scientific School are slightly smaller than last year with the exception of the Freshman, where an increase of 2 is noted, the registration being 194 this year. The decrease in the upper classes amounts to very little.

In comparing the men coming from the different States this year with those from the same States last year, it appears that the principal gain is in the North Atlantic States. Connecticut sends a delegation of 443 as opposed to 433, and Massachusetts 93 as against 88. Vermont and Rhode Island also show an increase of 4 each.

The Middle Atlantic States as a whole show a slight increase, although the Pennsylvania delegation has fallen off 12 from its previous number, 135. New Jersey sends 8 more men than last year, while New York has the exact representation, 457, of last year.

There are 18 representatives from foreign countries. The different countries represented are Germany, Turkey, Hawaiian Islands, Italy, Canada, Sweden, Mexico and England.

The representation by States of the classes of the Academic Department and Sheffield Scientific School follows:

State.	1900	1901	1902	1903	1904	1905	1906	1907	Total.

WEBSTER'S INTERNATIONAL DICTIONARY is commended by educators and philologists almost without exception. The definitions are clear and explicit, the different meanings are given in the order of their development, the pronunciation is indicated by the ordinary diacritical marks taught in the public schools. It is the safe guide of all who would speak and write the English language correctly.—*Adv.*
