New Haven, Conn.

MY DAY IN NEW YORK is Thursday Place, Astor House. Time, 12 to 4.

### YALE OBITUARIES.

[Continued from page 193.]

went to Europe, and after two years, spent in travel, entered the School of Mines at Paris, from which he graduated with honor in 1860.

Soon after his return home he was appointed to take charge of the minerals of the Smithsonian Institute at Washington, D. C. In March, 1863, he prepared plans for a School of Mines, which were used in the establishment of a department under that title in Columbia College, New York City; and to carry out these plans he was, in January, 1864, chosen Professor of Mineralogy and Metallurgy in the institution. This professorship in the School of Mines of Columbia University he held until 1897, when he resigned on account of ill health, and was made professor emeritus. In June, 1874, Princeton honored him with the degree of Doctor of Philosophy, and in July of the same year Trinity conferred on him the degree of LL.D. In 1891, he was made a Chevalier, and in 1895 an officer of the Legion of Honor of France.

He has published two large volumes on the "Metallurgy of Gold and Silver in the United States," three editions of a Catalogue of Minerals and their Synonyms, a "Life of Major General Patterson of the Revolutionary Army," and numerous pamphlets on subjects relating to Metallurgy.

Since 1878 Professor Egleston has been a vestryman of Trinity Church Society, New York City. He is a Vice-President of the New York Protestant Episcopal City Mission, and of the Bible and Common Prayer Book Society, and in 1895 was elected a trustee of the General Theological Seminary of the Episcopal Church. He was married on May 2, 1865, to Augusta, daughter of Edward McVicker, who died four years ago.

Two brothers survive him, David S. and William Egleston.

JOHN READ WALKER, EX-'68.

John Read Walker, ex-'68, died at his home in Kansas City, Mo., Saturday, January 27, of an inflammation of the lining membrane of the heart. He had been very sick for two weeks and his death was expected.

Mr. Walker entered Yale with the Class of Sixty-Eight, but left in his Sophomore year to take up the business of stock-raising in Bates County, Missouri, where he had purchased a large farm. From 1870 to 1872 he represented his county in the State Legislature. About 1875 he began the study of law

and five years later was elected prosecuting attorney of Cooper County, where his ability began to be noticed, earning for him the appointment as agent from Missouri to secure the war claims for that State from the United States government. He was a delegate to the Democratic national convention in Chicago, in 1896, and did a great deal of work afterwards in the campaign for Grover Cleveland. In February, 1894, he was appointed by the President to be United States District Attorney for the Western District of Missouri, holding the office until a little more than a year ago.

Mr. Walker was married in 1880, to Miss Alice Ewing, who survives him with four children, three boys and one girl.

PHILIP D. ARMOUR, JR., SPECIAL.

Philip D. Armour, Jr., who was a special student in the Sheffield Scientific School during the year 1888-9, died of congestion of the lungs at Montecito, Cal., Thursday, January 25, after an illness of only 14 hours. He left Chicago a week or two before apparently in perfect health, to visit his father, who has taken up his permanent residence in California.

Mr. Armour was born at Milwaukee, Wis., January 11, 1860, and prepared for College at Phillips Andover Academy, entering Yale as a special student in the Scientific School in the Fall of 1888. He stayed only one year and then began a long trip through Europe, at the end of which he returned to Chicago and was taken into the Armour firm, which consisted of his father and elder brother. He was married ten years ago to Miss May Lester, daughter of John T. Lester of the Chicago Board of Trade, who survives him with two children, Philip D., seven years old, and Lester, five years old.

JOHN F. CUFF, '92 L.S.

John F. Cuff, '92 L.S., Danbury, Conn., died Saturday, January 20, at Suwanee Springs, Florida, where he went three weeks ago for his health. He had been in poor health about two years caused by a stomach trouble, but had been gaining strength and gave hopes of a complete recovery.

Mr. Cuff graduated from the Yale Law School in 1892, and was admitted to the bar. Soon after, he returned to Danbury and was elected Corporation Counsel for the city by the Democratic Common Council.

He was elected about the same time a member of the Democratic State Central Committee from the Fifteenth Senatorial District, and served in that capacity for several years.

THE LATE WARD CHENEY.

The men in attendance at the annual New York dinner of the Class of Ninety-Six on Saturday, January 27, adopted the following:

It is with profound sorrow and a keen realization of our irreparable loss that at this meeting we, his classmates, are called upon to take action on the death of Ward Cheney, Yale '06, First Lieutenant, Fourth Infantry, U. S. A., who died at Imus, P. I., January 7, 1900, from wounds received in action. Beloved at Yale by all who knew him for his affectionate nature, his generous and manly judgment and his high ideals, we each of us feel that by his death we have lost a dear personal friend.

In his relations to his fellow men his conduct was always marked by that fairness and true-hearted sincerity which endeared him to us all. Later, in the field, fighting for the country he loved, his great courage and his devotion to the cause for which he gave his life were marked by that splendid and enthusiastic patriotism which made him the fearless leader that he was—the highest type and example of an American soldier.

In his short life and its noble end, he brought great honor upon the class and the college he loved.

To his bereaved family we beg to offer our heartfelt and warmest sympathy.

WALTER P. PARET,  
TOM S. KINGMAN,  
H. J. FISHER,  
MCKEE DUNN MCKEE.

Committee.

### Death of Professor Hazen.

Professor Henry H. Hazen, formerly an instructor in the Sheffield Scientific School, died in Washington, D. C., January 23, his death being the result of a bicycle collision, which fractured his skull. He did not regain consciousness after the accident. Mr. Hazen was born in Serur, India, January 12, 1849. He was educated at St. Johnsbury, Vt., and at Dartmouth College, graduating from Dartmouth in 1871. For the next four years he was instructor in drawing in the Sheffield Scientific School, and for four years more was Assistant to Professor Elias Loomis, in Meteorology. On May 1, 1881, he went to Washington to become computer in the United States Signal Service, and in October, 1887, became one of the regular officers of the United States Weather Service. Nine years ago he received the appointment of Professor of Meteorology of the Weather Bureau, which he has since held.

While with Professor Loomis, at New Haven, Prof. Hazen devised a new system for reducing barometric observations to sea level which was adopted by the Government Weather Service, and a few years later he invented a form of sling psychrometer with which he showed that there was no difference in evaporation from an ice and water covered thermometer. In 1885 the Hazen thermometer shelter was adopted by the Signal Service. In 1888 he published a handbook of meteorological tables which is still in daily use by practical meteorologists.

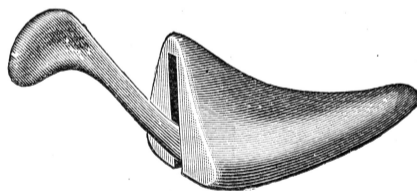

Professor Hazen wrote extensively for the last ten or fifteen years of his life on all departments of Meteorology. He was unmarried.

### M. de Regnier to Lecture.

M. Henri de Regnier, one of the greatest of modern French poets, who is the Cercle Francais lecturer at Harvard this year, will give a series of three lectures on French Literature, at Yale, during the month of March. The dates and subjects are: March 5—"Parnassians and Symbolists—Origins of Contemporary Poetry"; March 19—"The Poets of To-day—Future of Poetry"; March 20—"Michelet, a Poet—Historian."
